

STRATEGY HOW TO PREPARE GEOGRAPHY?

TARGET FOR IQ

INDIA AND ITS NEIGHBOURING COUNTRIES

* In this you have to study about the countries sharing the boundaries with India. Moreover, we will study about the Aquatic Countries and the Terrestrial Countries neighbouring India, and the dividing lines and the state touching each other's boundary.

NOTE - While preparing for this, keep the map with you and study with the help of map. It would be better to purchase the blank map, which has to be practised 2-3 times.

* We have to study about the area of India, position, its states and Union Territories, specially the states lying near the Tropic of Cancer and states according to the area.

* The Eastern and Western Coastal states of India, and their coastal length.
